Necessity for Mill Obviated by Contract for Silicious Gold-Silver Ore.

MEANS DIVIDENDS CAN BE RESUMED

LARGER CHINO MILL IS EXPECTED SOON

Thompson, Towie & Co, has officially authorized a concentrator of 2000 tons daily expacily, which plant is now in the process of construction at Hurley, New Mexico, A 5000-ton plant has been practically decided upon, that is, many of the officers and directors have expressed themselves in favor of this increase, and although the directors have not sanctioned it, it may be stated that the enlargement has met with no opposition and in all probability some action will be taken at the next meeting of the company.

mil be taken at the next meeting of the company.

Chino has made such a wonderful record of ore development in the past year that it has even surpassed the expectations of the management. While it was thought that many million tons would be placed in reserve. It was bardly expected that such a large tonnage would be developed. At the last estimate made December 1. 1910. 31.755.700 tons were in the probable and developed reserves, assaving 2.53 per cent copper.

In view of the condition of the property at the present time it is no surprise that the feeling exists among the management that the increase from 3000 to 5000 tons per day is justifiable.

COPPER SALES SHOWING

A MATERIAL DECREASE

The copper sales for the past three weeks, stated a message over the Pollock wires on Wednesday, totaled twenty million pounds, and that the consumer was asking for and receiving some concessions in prices to his henefit. The statistics for December, therefore, are likely to show a rather unsatisfactory condition. The domestic deliveries for November were 60,801,932 pounds.

Metal Market.

The metal quotations for Wednesday posted by McCornick & Co., were as fol-lows: Silver, 542c; lead, \$4.50; copper \$4.42\frac{1}{2}.

# LOWER MAMMOTH IS SHIPPING NEW ORE

Second Level Work Giving Good Grade for the Local Market.

A car of ore was shipped last Satur day from the Lower Mammoth property and another car was forwarded to the market on Tuesday, both cars coming GEOLOGICAL SURVEY from the new find of ore on the 200-foot Conditions on this new level are ertainly very promising, and it is not certainly very promising, and it is not a matter of very wide appreciation that sufficient ore had been encountered to make up the tonnage already shipped. John Dern, president of the company, said to The Tribune on Wednesday that the improvement since his visit of ten days ago certainly was material. The ore break then being followed has been developed along its trend for about seventy feet, and while there is some lime scattered throughout the same, there also is ore of good quality, as these two cars shipped will demonstrate when settled for. The management is continuing the drift, and a raise is being driven in ore also, and a continuous improvement is noted as these various faces are sent alread.

ahead.

This 200-foot level is between 400 and 500 feet below the surface, and on the 300-foot level, which is 100 feet deeper than the 200, the same ore break and the same initial mineralization has been discovered by Superintendent Coffin. Work will be started in carnest on the 200 without delay.

"This is the first ray of sunshine the Lower Mammoth has had for a long time, and were it not for the disappointments of the past we would feel more than elated. As it is, we certainly are encouraged, and will open this new find with as little delay as possible," said Mr. Dern.

Ore Shipments.

The Utah Ore Sampling company on Wednesday released 4 cars of ore from Utah and 3 cars from Nevada camps.

# To the Despondent.

If you are run down, weak or sick; if your nerves are all unstrung and you cannot sleep; if you are losing weight and you are aging prematurely, Palmo Tablets will cure you or they cost you nothing. Don't you want to look and feel younger? 50 cents. Book Free. Address the S. R. Feil Co., Cleveland O. For sale by SCHRAMM-JOHNSON, DRUGS, FIVE STORES.

### NO IMMEDIATE HOPE FOR BETTER PRICES

James A. Pollock & Co., bankers and brokers, furnish the following, received over their private wire yesterday after-

James A. Pollock & Co. bankers and brokers, furnish the following, received over their private wire yesterday afternoon:

Paine Webber & Co. letter, Boston—Lake continued in good demand today, but showed little change in price. North Butte also maintained its same level. Commission business is at the same lovel commission business is at the same lovel lovel, orders both ways being scarce. One house had an order to buy 200 North Butte and had to buy it in six lots, fice of which came from floor traders. The same experience is found all through the list and simply shows the stagnant condition of the market. We see no reason to expect any general liquidation in coppers and believe firmly the next activity will be on the up-side.

Logan & Bryan stock letter, New York—The coalers afforded the greatest activity today, particularly Lehigh Valley which was favorably affected by an increased dividend rate from 6 to 10 percent yearly basis. The regular dividends were declared on Reading Issues and also on several of the subsidiaries of the New York Central. The Iron Age states the expectation of lower prices is the dominating influence in iron and steel markets and that buyers are confident that a reduction on steel products is likely. Probably after the turn of the year, should the volume of new orders under prevailing quotations be sufficient to warrant such a course, some adjustment in the above respect will be made. The near approach of the holidays will no doubt tend to further restrict the trading in security markets and tend to make the session dull and uninteresting.

Gallagher (New York) says: Mines of America, El Rayo and British Columbia Copper were the principal features today. Giroux, Chino, Ray Consolidated and Inspiration, dull and steady. United States Light & Heat, preferred, declared regular semi-annual dividends of 31 per cent. From Blossom, Sêc bid, with no actual offerings. Tonopah and Oil stocks, quiet. New York Sim says: Market had a rather heavy tone during the greater part of the session. A littl

noon.

Hornblower letter, Roston: There was very little doing in the Boston copper market today, changes were merely fractional. Traders did very little either way. There is very little to be looked for, other than a narrow traders' market, at present.

### BOSTON & MONTANA IS BEING DISSOLVED

The Boston review of James A. Pollock & Co. on Wednesday brought the news that the dissolution of the Boston & Montana company late this month will be another step in the merger of Amalgamated properties into the Anaconda Copper Mining company. Each share of Boston & Montana will be exchanged for eight of Anaconda and the bulk of Anaconda's 1,290,990 stock exchanged will go to the Amalgamated.

A Boston estimate of the copper situation gives 60,000,000 pounds as total reduction in outputs since July 1 and the present monthly curtailment at around 13,000,000 pounds, Of this Butle's allotment is 2,500,000; Arizona, \$2,500,000, Callfornia, 2,000,000; Uake Superior, 500,000 and scallered, 2,000,000. The Amalgamated interests, Utah and Nevada Consolidated companies and Phelps Dodge & Co., are contributing mostly of the curtailment programme. As compared with June the October output of Amalgamated's Butte mines showed a decrease of 12 per cent, while Utah and Nevada each showed a 15 per cent decrease. Meanwhile the curtailing companies are making extensions and repairs that will enable them to push production to the limit when market improves.

KEVSTONE CHANCES DATE

### KEYSTONE CHANGES DATE OF LAST ASSESSMENT

The assessment No. 1 of the Keystone Mining company, which was delinquent on December 15, by the action of the board of directors on that date, has been extended to January 14, 1911, and the time for the delinquent stock sale is changed from January 17 to February 16.

substitute is a dangerous make shift especially in medicine. The gen ine Foley's Honey and Tar cures coughs and colds quickly and is in a vellow package. Accept no substitutes. Schramm-Johnson, Drugs, five stores.

### LOOKS LIKE OIL IN THE MASON VALLEY

Is there oil in the Mason and Smith valley section of Nevada? This question is being asked again, as some recent drilling done along the bed of Mason valley for water has brought indications of oil to the surface. There has been considerable interest in the probability of the existence of oil in that section, and the United States geological survey has given the field a preliminary examination, but so far nothing very definite is known.

tion, but so far nothing very definite is known.

One interesting find during the excavating for the Mason Valley Mines company's smelting plant, which is along the foothills bordering Mason valley on the cast, is the abundance of petrified wood and other vegetation brought to the surface. This indicates that at one time that country, now barren of trees and with millions of acres of sage brish and sand, was thickly timbered. This illustrates the tremendous changes of nature, and where are now countless miles of desert, at one time was tuxurious vegetation and shundance of water. This, no doubt, has given what traces of oil the operators of that section believe will be developed in good time.

### MINING BIG TONNAGE AT NEVADA CONSOLIDATED

Two steam shovels are all that are needed to load 150 cars of 2000 tons of ore a day in the pit at Copper Flat, but the biggest and best shovels are kep-on the job, as are the best engineers in order that the production may be

maintained at a steady figure as long the weather remains favorable. Wh the stormy season comes, the product may be unavoldably reduced tempora-ly.—Ely Expositor.

# Are You a Perfect Man?

With No Back Pains No Nervousness No Waste of Tissue

No Loss of Ambition But With Plenty of Life, Energy and Vigor of Youth

To be strong is the aim of every man, and yet how many we find who are wasting the vitality and strength which nature gives them. Instead of developing into the strong, vigorous young fellows that nature intended them to be, they find themselves despondent—no ambition to do anything. They struggle aimlessly along, sooner or later to become victims of that dread disease, nervous deblity; their finer sensibilities biunted and their nerves shattered.

# A Sure Cure A Small Fee

The great volume of my practice allows me to make uniformly low fees, so that no man need be without proper treatment. I absolutely have the best equipped medical offices in the west. This fact, together with my knowledge and experience, insures every man receiving the best and most scientific treatment known to the profession.

I never make my fees or means of paying them out of the reach of any man, for I have plenty of this world's goods, and it is my desire to give to diseased men the best treatment to be had for a small outlay of money. Within the reach of any man.

DON'T DELAY-CALL TODAY

Perfected in Old Cases Which Have Been Neglected or Unskilfully Treated. NO EXPERIMENTS OR FAILURES.

NOT A DOLLAR NEED BE PAID Unless Cured to STAY CURED

## ONE-HALF THE FEE CHARGED BY OTHER SPECIALISTS

S I use the quickest cure in the world for Weakness of Men, which I will cure, to stay cured. Call and investigate take. Come to me first and avoid wasting your hard samed cash medicines or treatments. Consultation and examination free. Chronic Cases If you have an old case that has been hanging on for mouths and which medicines from doctors and druggists can't seem to cure, there is some reason. I have a scientific cure for these cases and will cure right, quickly and cheaply. Don't let a disorder drag you down in health.

Blood and Skin Disorders uric acid, skin disorders, eczema. Don't se to Hot Springs; I can cure you cheaper and better. Under my scientific treatment all these symptoms quickly disappear, and robust health returns. If others have falled to cure or are not benefiting you, come to me. I cure permanently, quickly and cheaply.

Varicocele Usually occurs on the left aide and often causes dragsings, achusually caused by strains, lifting, bleyele riding, prolonged standing on the feet, sedentary habits. I cure without cutting. The cure is safe and absolute processing. Come and see me free.

Bladder Trauble and Kidney Discorders. Have you backschel

Bladder Trouble and Kidney Disorders Have you backache? plexion? Have you weak or fainting spells? Do your feet swell? If you have any of these symptoms don't wait until your case gets bad. I will give you a careful examination free. Come now.

Nervous Men Not sick in Bed, Yet Hardly This is how you ally pain across the small of the back, blue rings under the eyes, species before the eyes; sleep does not refresh you; you get up in the morning feeling tired; your memory is poor, your mind wanders; you are hollow eyed; you are fearful, always expecting the worst to happen; nervous, no appetite. Dear reader, come to me, and I will lend you a helping hand. I cure cheaply and permanently. Come today—don't put it off any longer.

## CERTAINTY OF CURE

Is what you want. I will give you a written LEGAL GUARANTEE to cure you or refund your money. If you are tired of paying out money and waiting for results, this is your opportunity to be cured quickly. There is all the difference in the world between doctors and treatments, and you want the best-

## OUT-OF-TOWN MEN VISITING THE CITY

Consult me at once upon arrival, and maybe you can be cured before returning home. Many cases can be cured in one, two or more visits, continuing treatment when home. Consultation and advice free. Medicines 31 to \$5.50 per course.

Every "Worn-Out." Diseased and Nervous Man Has a Chance to Get Cured.

I do not "Patch Up." I cure to stay cured. Do not delay. Call or welts
today. I diagnose by exclusion. No mistakes made. Consultation free. Examination free. Urinal analysis free.

Write for self-examination blank if unable to call. Many cases can
be cured at home, secretly. No loss of time.
